FYI

We have combined Bryce's Fayette Quarry (ML 48313; M/039/013) and Gunnison Quarry (ML 47244A and ML 47272A; S/039/012) mineral leases into one super lease, ML 48949-OBA. The new lease number should be referenced by DOGM for both permit sites. I hope this is not too confusing. We will continue to recognize the two different sites by their quarry names.
